a reference tool divided into three sections which correspond to the types of conclusions possible regarding the relationship between political theory and political analysis complementary integral and mutually exclusive

young people who are considered vulnerable or at risk are a particular target of various policies schemes and interventions but what does vulnerability mean interrogating

conceptions of vulnerable youth explores this question in relation to various policy fields that are relevant to young people as well for how this plays out in practice and how it is experienced by young people themselves what makes this book unique is that most authors had the opportunity to jointly explore these issues during a two day workshop and their chapters are informed by their cross agency and cross discipline discussions making for a nuanced and thoughtful set of contributions this collection is highly recommended for researchers and research students in the social sciences as well as professional staff working in youth policy and youth services in government departments and in ngos those who are most vulnerable should receive our greatest moral attention however the translation of generalised moral principles into effective policy and programs has never been easy political interests have invariably intervened leading to complex debates about how vulnerability should be defined classified measured and represented in recent years these debates have become further complicated as nation states around the world have preached austerity this timely book suggests that the responsibility for protecting the vulnerable cannot be left to individuals but demands collective action through institutions such as education health and welfare it examines some of the ways in which public policies and programs represent those who are vulnerable involving a range of assumptions about the social economic and political conditions that produce their vulnerabilities from the foreword by professor fazal rizvi

now in a thoroughly revised 5th edition an introduction to the policy process provides students at all levels with an accessible readable and affordable introduction to the field of public policy in keeping with prior editions author tom birkland conveys the best current thinking on the policy process in a clear conversational style designed to address new developments in both policy theory and policy making this 5th edition includes examinations of the brexit referendum results and its effects on the uk eu and world politics as well as the 2016 election of donald trump as president of the united states and the ways in which these events have caused voters and policy makers to rethink their assumptions changes to the media environment including the decline of newspapers and television news the growth of social media and the emergence of fake news new policy theory developments like the emergence of the narrative policy framework npf and continued and newer applications of existing theories of policy process like advocacy coalitions multiple streams punctuated equilibrium and institutional analysis and development all new what does the research say boxes to illustrate concepts outlined in the book demonstrate the ways in which the material is applicable to a range of policy problems and encourage students to further study the policy process and substantive policy matters in which they are interested all new and updated chapter at a glance outlines definitions of key terms provocative review questions recommended reading visual

aids and case studies theoretical literature and powerpoint slides and test banks to make teaching from the book easier than ever firmly grounded in both social science and political science an introduction to the policy process provides the most up to date and thorough overview of the theory and practice of the policy process ideal for upper level undergraduate and introductory graduate courses in public policy public administration and political science programs

public policy is a broad and interdisciplinary area of study and research in the field tends to reflect this yet for those teaching and studying public policy the disjointed nature of the field can be confusing and cumbersome this text provides a consistent and coherent framework for uniting the field of public policy authors kevin b smith and christopher w larimer offer an organized and comprehensive overview of the core questions and concepts major theoretical frameworks primary methodological approaches and key controversies and debates in each subfield of policy studies from the policy process and policy analysis to program evaluation and policy implementation the third edition contains the latest scholarship and approaches in the field including new and expanded coverage of behavior economics the narrative policy framework implementation studies the policy regime approach and field experiments now with an appendix of sample comprehensive exam questions the public policy theory primer remains an indispensable text for the systematic study of public policy

in the present text the author deals with both conventional and new approaches to trade theory and policy treating all important research topics in international economics and clarifying their mathematical intricacies the textbook is intended for undergraduates graduates and researchers alike it addresses undergraduate students with extremely clear language and illustrations making even the most complex trade models accessible in the appendices graduate students and researchers will find self contained treatments in mathematical terms the new edition has been thoroughly revised and updated to reflect the latest research on international trade

the great depression of the 1930s gave birth to a branch of economics christened macroeconomics this highly readable book presents an unconventional and timely perspective on macroeconomics the interplay of theory and policy in a historical context

the concept of recognition and its relationship to the way we theorise identity and justice has emerged as part of an important debate in contemporary political and social theory with contributions from nancy fraser and international commentators this new collection examines key theoretical and practical problems of 'recognition' in politics beyond important normative issues in social theory such as how cultural claims to difference may

be justly accommodated in liberal polities it addresses a range of practical problems in which a politics of recognition approach casts new light on old conflicts and tensions examining these problems within the context of processes of globalisation and increasing cultural diversity organised into three sections recognition in politics theory policy and practice analyses new theoretical directions the challenges of managing multicultural societies and social policy case studies featuring a recent paper by professor nancy fraser based on her 2004 spinoza lecture this collection examines core issues in contemporary debates over recognition extending these debates in new and significant ways the contributors extend the literature on recognition by applying the theory to practical contemporary political problems these papers reveal the capacity of the recognition paradigm to generate new insights into political problems but also the limitations of the conceptâ€™s theoretical purview together these commentaries offer an invaluable road map to the most recent scholarship on recognition

young children as citizens explores how young children birth to 12 years of age can and should participate in civic life it reflects new images of young children as social actors together with the increased interest in children's rights in the public sphere the contributors are early childhood researchers pedagogues children and policy makers from australia and europe they present a rich diversity of research based case studies in which policy makers and educators have listened to young children's views on public issues and responded in respectful and ethical ways young children as citizens is a unique resource for policy makers those working in children's services and child advocates it shows how best to consult young children and it presents a range of arguments that consulting young children about policies and decisions that affect them supports and enhances a vigorous democratic society students undergraduate and postgraduate teachers and researchers in early childhood studies can use individual chapters of young children as citizens selectively to explore issues of increasing complexity in different courses the book would be a good set text for honours and master's programs that address issues of children's rights

pitched at the optimum level for undergraduate students the third edition of this successful and widely adopted intermediate level uk macroeconomics text has been very extensively revised and updated the authors have ensured that the existing strengths of the book's tried and tested approach are retained whilst the latest theoretical developments and policy controversies are examined it provides the uk undergraduate with traditional methods of analysis is lm as well as neo classical and neo keynesian approaches an emphasis on the leading contemporary conceptual issues and an historical perspective on their development a highly developed and successful text with a non us orientation that makes sense of the uk context for macroeconomic policy and debate based on long teaching experience macroeconomicswill continue to be an essential text for second and

third year undergraduate courses

this book explores the meanings and perceptions of development and the dialectics of theory policy and practice it looks at how theory translates into policy and the disconnections in its design and implementation in the indian context the book focuses on the influence of capitalist globalization democratization decentralization and neoliberal economic reforms on the development discourse in india and how these have challenged the traditional role of the state the meaning of citizenship and public participation through an analysis of case studies from various parts of the country it bridges the gap between policy prescriptions and practices and unpacks the institutional political and policy led compulsions and incompatibilities which most often remains unreported it also discusses the intersections between policymaking and the politics of class caste and gender and emphasises the role bureaucracy plays in institutional governance the volume includes articles from professionals ranging from academics practitioners and activists it will be of interest to scholars and researchers of public policy development studies south asian politics and economics as well as policy makers and practitioners in government and civil society
